## Education

University of Central Florida	2024-present
-------------------------------	--------------

## Clubs

Green Leader (President)	2023-2024
National Honors Society (Officer)	2023-2024
First Robotics Club (Builder and Designer)	2022-2023

## Awards, Certifications, and Experiences

- **Awarded Externship at the FAMU-FSU College of Engineering, 2023**
  - I spent over 8 hours per week working with a group on a project involving data analysis and visualization to create a program displaying NFL game data in a virtual simulation. The objective was to enter and win the NFL data competition.
- **Certificate of Achievement for 2023 FSU Entrepreneurial Summer Camp Pitch Competition**
  - As a group, we created a unique brand concept incorporating entrepreneurial skill and innovation. Our brand won first place in the competition.
- **Won the Shirt Design Contest for Lincoln's First Robotics Club, 2023**
- **Programming knowledge of various degrees**
  - HTML, CSS, PHP, JavaScript, SQL, Python, TypeScript, Next.js, React.js, Node.js.
- **Roblox Bricksmith Badge (x2)**
  - Awarded to both of my Roblox accounts for receiving 1000 place visits on my games.
- **Roblox Gold Crown of O's Developer Award, 2021**
  - This virtual item is awarded to developers whose games have over 100 monthly active players.
- **First Robotics Club 2023 Regional Competition**
- **President of Green Club**
  - Leads Green Club activities every Wednesday after class. Coordinates collection of teachers' recycling bins, transports and empties them, and returns bins.

- **National Honors Society Acceptance, 2021**
  - Invited to join due to maintaining an above 4.0 GPA and active participation in community volunteering.
- **National Honors Society Leadership, Present**
- **Certifications**
  - Certification of Completion for Front End Development: HTML – 2024
  - Certification of Completion for Front End Development: CSS – 2024
  - Passed Certification Exam for HTML5 (Advanced) – 2024
  - Passed Certification Exam for CSS3 (Advanced) – 2024
  - Passed Certification Exam for PHP Web Development (Foundation) – 2024
  - Passed Certification Exam for JavaScript (Foundation) – 2024
- **Academic Awards Ceremony**
  - 2023: Awarded to students with an above 4.0 GPA
  - 2022: Awarded to students with an above 4.0 GPA
- **Typing Efficiency Certification**

## **Community Activities**

- First Baptist Church of Tallahassee Youth Choir and volunteer
- United Methodist Church volunteer
- President of Green Club – organize park and school cleanups and recycling events
- Lincoln High School and Buck Lake Elementary volunteer

## **Notable Experiences**

As an extern at the FSU College of Engineering and group member for the FSU NFL Data Bowl Team, I volunteered to showcase our project at the Tallahassee Science Festival. My role involved explaining our group's project to both parents and children. Our project centered around collecting game data from NFL plays and visualizing it into a virtual simulation.

In my role as the leader of the Green Club, I took the initiative to coordinate a park clean-up event at Tom Brown Park twice over the weekend. Many volunteers joined me in making a difference by picking up litter in the park. This endeavor benefits all who frequent the park, creating a more enjoyable and sustainable shared environment.

I participated in a food drive in Franklin, Tennessee, as part of my Church's Youth Choir. Due to size, my role involved unloading food from the truck and delivering it to stations where other volunteers would bag it. Subsequently, we distributed the bags to the thousands of cars lined up, loading the provisions into their trucks. The experience was

emotionally impactful, witnessing the significant turnout of people seeking extra assistance during the peak of the pandemic. It underscored the importance of community support and solidarity during challenging times.

During the Tallahassee First Baptist Church Youth Choir mission trip, I volunteered at a homeless shelter in Atlanta, Georgia. My responsibilities included organizing and bagging clothes. Additionally, our choir performed songs for the homeless. The experience was deeply emotional as the entire group of people joined us in singing. Many were visibly moved, with some breaking down in tears as they listened to our heartfelt songs. It was a powerful reminder of the impact that music and human connection can have, especially in the lives of those facing challenges.

The Bash and Dash, Buck Lake Elementary School's biggest fundraiser, is an event that students look forward to every year. This event is organized by parents and high school volunteers, who work together to provide continuous support to the school's staff. Overseeing multiple bouncy houses, I was responsible for managing game tickets and creating a safe and organized setting for the students to enjoy.
